Messages and Codes - EOR1501 - EOR2000

This subsection covers the following topics:

- Displaying a Long Message Text
- Messages EOR1501 - EOR2000 in Numerical Order

Displaying a Long Message Text

To display a long message text

- Use the direct command

> **HELP MSG <message-code>**

Messages EOR1501 - EOR2000 in Numerical Order

Message	Explanation	Action
EOR1510 -:1:has:2:Mailbox Messages	The message shows the number of mailbox messages waiting for a user or group.	
EOR1511 - User Profile prohibits Mailbox Display	There are messages in the user's mailbox, but they can not be displayed due to the user profile.	Change the user's profile, or send the messages to another destination.
EOR1531 - Mailbox:1:not defined	The mailbox has not been defined by the system administrator.	Use the wild card option to get a list of valid mailboxes.
EOR1532 - Mailbox linked to User:1:	The mailbox definition cannot be deleted, since it is linked to a user.	Delete the mailbox link for the user first.
EOR1533 - Mailbox linked to Job:1:	The mailbox is linked to an input condition of the job appearing in the job.	Delete the mailbox link for the input condition first.
EOR1651 - End-of-Job Activation not allowed for:1:	The current or defining user of the End-of-Job Action 'Activation' is not allowed or granted to activate the specified job network or job. The definition or activation was aborted.	
EOR1701 - Invalid Grant Option	The grant option is missing or invalid.	Use the field-level help to select a valid grant option.
EOR1702 - Invalid Grant Object	The objects to be granted may be: Owner User	Enter a valid Grant Object
EOR1705 - Network Owner added to Grants	The network owner was added to the granting list. The 'own' owner must be defined by default.	
EOR1712 - User Profile:1:not found	Use the profile of a defined user.	

EOR1714 - User Profile copied from:1:	The profile of user :1: has been successfully copied to the definition of the new user.	
EOR1715 - User:1:not defined	Use the 'System Administrator Services' to define the user first.	
EOR1717 - User:1:deleted	The user definition within Entire Operations has been deleted.	
EOR1718 - User:1:added	The user is now defined to Entire Operations.	
EOR1719 - User:1:modified	The definition of the user was successfully modified.	
EOR1720 - Invalid User Type	Valid user types can be inquired with the field-level help (?).	
EOR1740 - Modification of Entire Operations System Defaults not allowed	Modification of EOR defaults is not allowed for this user. Only the system administrator is allowed to modify EOR defaults. A system administrator is defined in the EOR user profile by: 1st Usertype = A 2nd Owner = SYSDBA	
EOR1752 - Resource Name missing		Correct error.
EOR1753 - Resource Type missing		Correct error.
EOR1754 - Initial Quantity is less than in use	The initial quantity of a logical resource may not be lower than the quantity currently in use.	
EOR1801 - Please enter the Log Date		Correct error.
EOR1811 - Please enter a Date Range		Correct error.
EOR1815 - Date Range may not exceed 1 month		Enter a valid date range.
EOR1818 - Symbol Table Name missing		Correct error.
EOR1819 - Symbol Table Name required for Type = 'MAC' only	A symbol table must be specified for all MAC-type jobs, i.e. jobs that use dynamic JCL generation. A symbol table may not be specified for any other job type.	Correct error.
EOR1830 - More than:1:symbol tables in network	It is not possible to use more symbol tables within a whole job network, than specified in this message. The network activation will be interrupted.	Use fewer symbol tables.
EOR1840 - Range Check only valid for Format 'N'		
EOR1841 - No User Routine possible - Range check defined	A range check was defined for this symbol. No additional user routine definition is possible.	

EOR1850 - Symbol Name missing or invalid	The symbol name must be in a valid Natural variable name format. IT MUST NOT BEGIN WITH ANY ESCAPE SYMBOL.	Correct error.
EOR1851 - Symbol Type missing or invalid		Correct error.
EOR1852 - Symbol Value missing		Correct error.
EOR1853 - Symbol Length enlarged	The defined symbol length was smaller than the real length. Entire Operations set it to the real size.	
EOR1855 -:1:	The entered symbol value has been rejected by a symbol plausibility check user routine. The message text is supplied by the user routine.	Enter a correct symbol value.
EOR1859 - Symbol Table used in Definitions	The symbol table may not be deleted, because it is defined for the dynamic JCL generation of some jobs. To find out these jobs, use the W line command.	Modify the corresponding job definitions first.
EOR1860 - Symbol Table not used in Definitions	The symbol table is not defined for any job for dynamic JCL generation.	
EOR1863 - Invalid Symbol Prompting	Use the field level help to see the valid prompting types; correct error.	
EOR1864 - Symbol:1:modified	The symbol value modification was successful.	
EOR1911 - Natural Subtasks limited to:1:	The number of parallel subtasks for the execution of Natural programs is limited to the shown value.	
EOR2000 - Monitor Task:1:Start on:2:at:3:	The Message shows the date and time the Entire Operations Monitor Task was started or restarted. (Task 1 is the Monitor Main Task.)
